

Audio Visual System for Boardroom at Agility Logistics Mumbai Head Office

Agility Logistics Mumbai Head office wanted to renovate Boardroom using advanced audio visual technologies and Cisco Videoconference facilities for the best experience of Video Conferencing, Presentations along with Control Automation.

The Challenge

Agility Logistics Mumbai Head Office wanted to renovate Boardroom with the use of Advanced audio visual technologies for their high profile meetings & video conferencing.

In continuation they were looking for the simplified control automation on the Cisco Touch Panel rather than having separate Control Processor and Touch Panel.

The Solution

The AV certified team at Pratyam carefully evaluated Agility requirements and build up a solution that satisfies the client requirements.

Cisco Videoconference System with Dual 55" Displays were deployed for optimum quality as the main display. Cisco Full HD Videoconference system with 12X Zoom Camera is able to deliver the crystal clear video out.

Lightware 8x2 HDMI Matrix Switcher along with Transmitters and Receivers having Built-in Matrix Switching Functionality, EDID Management, Audio embedding, de-embedding, Event Manager (Control Automation), command injection, Auto-select, priority modes, etc. features were deployed for the Matrix Switching Functionality as well as for the Control Automation. This multiport matrix switcher with built in processor seamlessly connects with Cisco Videoconference System and gives the complete control automation functionality on the Cisco VC Touch Panel itself.

Epson Short Throw Interactive Projector with 106"D motorized screen has been provisioned for the bigger screen and longer time presentations and meetings.

With regards to the Audio System, Ceiling speakers has been provisioned for a natural audio quality throughout the room. The pleasing stereo audio sound quality of the above speakers is giving the long lasting experience to the client. The boardroom is aesthetically designed and we wanted to have the speakers that match with the aesthetics and gives the natural audio quality.

Kramer Cable Cubbies have been provided with HDMI , DP , VGA Audio & Cat6 Retractors which is giving ease of use and rolls back automatically due to hydraulic mechanism and keeps room neat & clean after use.

Lutron 4 Zone Lighting Control helps to create 4 different zones as per user requirement and gives altogether pleasing feel based on the VC , Presentation , General Meeting Mode. Occupancy Sensor is also provision which automatically switch ON / Off lights with the human presence or absence.

Lightware Digital Matrix Switcher supports 4K Resolution, 3D , HDCP Compliant and able to transmit seamless video, audio & Control signal and gives the best of the flexibility for the future use. We wanted to have a user friendly experience for the customer, so entire control application has been provided on the Cisco VC Touch panel itself which simplifies the application and ease of use.

The Result

The end-user wanted a Boardroom with advanced audio visual technologies with the best experience of Video Conferencing, Presentations & Control Automation and we have delivered this expectation with desired output and user friendly Control Automation..
